

Glenville Hill Fire Dept.
1086 Church Rd.
Scotia, NY 12302

Dear Firefighters,

I have been learning about firefighters in my third grade reading club. I read a book about firefighters and learned lots of facts. I think it is cool that you guys use modern equipment. Another fact I learned is that you guys use high-pressure hoses. If you know can you tell me what year women started volunteering in the 1900s. How many fires are received every year, what are the most fires happen in a year, how much do firetrucks cost. I'm going to predict that a firetruck costs 100,000 dollars. Did somebody or something inspire you to be a firefighter. Do you like to be a firefighter. How many years has there been fire stations around. How many firetrucks do you bring to a fire. Please write back.

Thank You,
Jake

Dear Jake,

June 10, 2017

Thank you for writing to my friends and me at The Glenville Hill Fire Department! You definitely asked some great questions! Let's see if I can answer some!

At Glenville Hill, we get about 100 calls every year, but most of those are for sick or hurt people. We only get 1 or 2 fires each year, because people are pretty careful!

Our newest fire engine, Engine 282, would probably cost about \$500,000 to replace! I have been a fire fighter for 7 years, and I like it very much, because I enjoy helping people! Glenville Hill Fire Department has been around for only 63 years or so, so it's pretty young! When there is a house on fire, we can have 7 or 8 engines there, if it's a big fire!

Have a great Summer, Jake!

Rick Manocche
